Smokin' Bar-B-Que  
200 East 5<sup>th</sup> Street  
Dayton, OH

Dear Tim,

I wanted to write this short note to say thank you for your absolutely excellent support in making our farewell luncheon for the Chassis Engineering Dayton Technical Center a complete success. When I consider the very short time between the actual planning of this luncheon and its being held, I am amazed at how flawlessly everything went.

The fact that you were able to accommodate our continually adjusting the numbers due to late additions was most appreciated. We had over 175 people attend this lunch and everyone commented on how good the food was and was impressed with the warming ovens you provided to keep reserve food warm while people were going through the serving lines.

In all the lunches and events we've had, I cannot remember one that went off any better nor was less effort in being successful. You can rest assured, you've have a new customers based on the comments I heard from people during the luncheon.

Thanks again,

Michael Schubert
